The **EscaLight** is an ideal replacement for under step, demarcation fluorescent bulbs. While using low voltage, the "cool to the touch" EscaLight emits a bright and continuous green light rated for 57,000 hours or **6.5 years** of use.

ECS DL240P
plastic molded housing is completely sealed, extremely durable, resists vibration and withstands water, oil, dirt and dust.

ECS DL240

The EscaLight is assembled in a rugged steel channel. The transformer is housed in a weather resistant, plastic enclosure and the wiring is encased in water resistant conduit. Simply run an electrical source to the transformer and your DL240 is ready to go.
